

## SUMMER READING ASSIGNMENT GRADE 8

The Devil's Arithmetic

AND ONE of the following:

Anne Frank Remembered by Miep Geis

Surviving Hitler by Andrea Warren

Maus My Father Bleeds History by Art Spiegelman

Students who are entering grade 8 are required to read two books this summer, one historical fiction read and the other nonfiction. To complete the following assignment, it is highly recommended that the student take notes as he/ she reads. These notes should reflect any / all historical details of the Holocaust time period. Upon our return to school in September, these notes will assist the student in literature discussions and assessments as well as enabling the 8<sup>th</sup> grader to complete the following summer assignment.

The teacher is offering the student a choice of 5 formats (**TIMELINE, or POWERPOINT, or TRIBOARD, or Visit the Holocaust Museum in Washington, D.C., or Design a Holocaust Memorial Museum Suitable for Middle School Students.** ) . Using one of these formats, the student will demonstrate his/her research into the time period known as the Holocaust. While the teacher expects that most students will enjoy following the plot (or story line) of The Devil's Arithmetic, it should be remembered that the focus of this assignment is on historical information of the time period, and NOT the plot.

### **ASSIGNMENT CHOICES: \*\*\* NOTE TO PARENTS**

The choice of task should be based on your student's ability in Language Arts. If your student struggles in this subject area, then choose an easier task. If your student excels, then encourage your student to complete a more challenging task. There will be NO effect on the grading process. All will have the same opportunity for success. Discuss the choice on the home front, and, if necessary,

confer with me by email. Upon our return to school, all students are expected to present the completed task to the class.

**TASK 1: A TIMELINE** The student will create a time line reflecting the discrimination and atrocities committed against the Jews by the Nazis under Hitler's directives. The timeline will begin in 1933 when Hitler came to power, and may extend as far as 1945 when the last concentration camps were liberated. A brief explanation of each event must accompany each date. Students may produce a traditional timeline (**easy**) OR may choose to create the timeline digitally on the computer. To do this, go to: [www.officetimeline.com](http://www.officetimeline.com) Go to making timelines and download the free edition. Then simply follow the directions of the set up wizard. (**average**) Minimum number of significant dates - 10.
